WORK EXPERIENCE

AHAN ONLINE, TEHRAN | JUNIOR FRONTEND DEVELOPER | JUL 2021–MAR 2022

- Created high-performance **reusable components** using **React**, **TypeScript**, and **Next.js** with a special focus on code **readability** and **maintainability**
- Worked on multiple projects, improved and converted over **50%** of the codebase to React components
- Implemented tabular and Form-based prototypes on a high scale
- **Promoted** from web development **intern** to **junior** front-end developer within three months because of convincing performance
- **collaborated** with a cross-functional **team of 20 people**, including backend developers, UI/UX designers, and product owners to implement new features and systems within an **agile** environment
- Resolved **50+** issues and fixed **high-priority functional bugs** based on the QA analysis on Jira

UNIVERSITY OF ISFAHAN, ISFAHAN | TEACHING ASSISTANT | SEP 2020–DEC 2021

- Taught Computer Fundamentals to computer science students supervised by Dr. Hossein Mahvash
- Assisted Dr. Ahmadreza Montazer with teaching Advanced Programming to CS students
- Taught Data Structures to CS students supervised by Dr. Reza Ramezani
- Helped Dr. Zohreh Beiki with teaching Computer Architecture to undergraduate students

MEHREGAN WORKSHOP, ISFAHAN | FRONTEND DEVELOPER | AUG 2020–APR 2021

- Developed Interkarsolar website using **React** and **Material-UI**
- Created the **logic** of fun **algorithmic games** using **JavaScript**
- Conducted a game theory course for junior students | [Presentation Link](#)

EDUCATION

SEP 2019–JUN 2024

BACHELOR'S DEGREE IN COMPUTER ENGINEERING, UNIVERSITY OF ISFAHAN

Grade: 18.04/20.00

Mastered **data structures**, **algorithms**, and **Object-Oriented programming** concepts.

Achieved **full score** in data structures, compiler, data mining, artificial intelligence, web development, and object-oriented software engineering courses.

Minored in mathematics.

Obtained Network+ certificate from SBISC.

SKILLS

- **Front-end Development:** React, JavaScript, HTML, CSS, TypeScript, Redux, Jest, Cypress, Ant Design, Tailwind, Material-UI
- **Programming Languages:** JavaScript, C++, Python
- **Other Skills, Technologies, and Tools:** Git, MongoDB, Mongoose, Algorithms, Data Structures, Scrum, SOLID Design Principles, Clean Code

PROJECTS

- **Heifes** | [Source Code](#) | [Demo Website](#)
 - Developed Heifes, an e-commerce website using Next.js that connects customers to stores that have unsold food surplus
 - Tested with over 15 test cases using Jest and overall coverage of 60%, also used Cypress to write four integration test scenarios
 - Developed using these technologies: React, Next.js, HTML, CSS, JavaScript, Typescript, Jest, Cypress, React Testing Library, next-connect, Tailwind, MongoDB, and Mongoose
- **Interkarsolar** | [Source Code](#) | [Demo Website](#)
 - Front-end developer at Interkarsolar, a non-profit workshop in math and computer science for junior students
 - Using JavaScript, HTML, CSS, React, Redux, and Material-UI
- **Tumblrite** | [Source Code](#)
 - Developed Tumblrite, a photo based social network similar to Tumblr for Web Development course at University of Isfahan
 - Using React, Redux, Material-UI, Node, Express, and MongoDB
